Tierney Viteri on phone number 202-671-3495 or via
e-mail to tierney.viteri@dc.gov

This course is aimed emergency responders including police, fire, EMS, DOT, DPW and towing/ recovery personnel who get involved with traffic control, either responding to an incident or enforcing traffic control in work zones.

It discusses basic principles of incident management and considerations for traffic control enforcement in work zones.

The course covers the basic principles and concepts of temporary traffic control presented in the Manual on Uniform Traffic Control Devices, a Federal standard.

Also discussed are the basic principles of temporary traffic control and the requirements of the component parts of typical work zones, such as taper lengths, device requirements and others. This course is a must for police and fire rescue personnel.

~ REFRESHMENTS TO BE SERVED ~
